## **The Joint French Workshop in Macroeconomics**

The goal of this workshop is to bring together European macroeconomists to discuss current research frontiers on a regular basis. To encourage participation from young economists, we aim to reserve at least half of the presentation slots for economists who have completed their PhD no more than 6 years before.

Applications from economists from all European institutions are welcome, in all fields of macroeconomics. Theoretical and empirical contributions are equally welcome.

The workshop is a one day event, and takes place twice a year. The next workshop should take place in Spring 2015. Funding is available for presenters.

**Please send a mail to [fondation.rech@banque-france.fr](mailto:fondation.rech@banque-france.fr) if you would like to be included in future communications about this workshop.**

### **Participating institutions**
