

## Loans by size of firms – November 2019

### SME lending remains buoyant

- At the end of November 2019, the outstanding amount of drawn credit reaches 1050.7 billion euros, up by 5.6% year-on-year, after a rise of 6.0% between October 2018 and October 2019.
- The slowing down of credit growth is greater for intermediate-sized companies (+3.3% year-on-year, compared to +4.0% in October) and for large companies (+2.9% over one year, after +3.6% in October). Credit growth is quite stable for SMEs (+6.5%, after +6.6% in October).
- The growth of the outstanding amount of drawn credit is strong in the sectors of information and communication (+10.2%), advisory and business support activities (+9.1%), industry (+6.8%) and real estate activities (+6.3%). The lowest increases are observed in the education and health (+1.1%), construction (+1.2%) and trade (+2.3%) sectors.
- The average interest rate on new loans to non-financial corporations of more than EUR 1 million falls by 12 basis points to a level close to that of September (1.29%, after 1.41% in October and 1.27% in September). The interest rate on loans up to EUR 1 million decreases slightly (1.50%, after 1.52% in October).

### Additional Information

The outstanding amounts of credit in this publication are those collected by the central credit register, i.e. of a unit amount of more than 25,000 euros. These outstanding amounts include drawn credits, which means those actually used, and the undrawn credits, unused lines of credit. Individual data are grouped according to the size (large firms, intermediate-sized enterprise - ISE and small and medium-sized enterprise - SME) and the sector of businesses. Businesses that cannot be assigned in a size category according to the criteria of the LME (Loi de Modernisation de l'économie) are included in the category "non-trading real estate companies and others".

Additional data on SMEs, interest rates by size of enterprises, and share of less than 3 year old enterprises (excl. sole proprietors) in the total of enterprises, are available at the following address: <http://webstat.banque-france.fr/fr/browse.do?node=5384417>

Outstanding amounts of credit to micro-enterprises (incl. sole proprietors), come from another data collection and are available at the following address: <http://webstat.banque-france.fr/fr/browse.do?node=5384934>

Non-financial corporations include all enterprises with as main activity the market production of goods and non-financial services, excluding sole proprietors.

Interest rates in this publication are those to new credits distributed by resident credit institutions to French non-financial corporations. The interest rates are effective rates in the narrow sense. They correspond to the interest component of the Annual Percentage Rate (TEG).
