(percent)

- Interest rates presented here are effective rates calculated by dividing the accrued interest flows months under review to the monthly average of the corresponding outstanding amounts. For the different types of deposits, they correspond to the average conditions practiced by the French credit institutions on deposits of non financial corporations and households (including non-profit institutions serving households) residents.
- Average pay rates for different deposits and money market weighted by the corresponding outstanding (zero rate for banknotes in circulation, equivalent to 3-month Euribor for the products included in M3 - M2 except MMFs).
- Regulated rates passbooks include passbooks A, blue passbooks, sustainable development passbooks, housing savings passbooks, youth passbooks and people's savings passbooks.
- Apparent Annual performance of MMF shares to all holders (source Fininfo -series calculated on the basis of annual returns of regular cash fund).
- MMF performance after deduction of management fees.
- Monthly average.
- Constant Maturity Rate of 5 years. Source: Bond Standardization Committee.

Ordinary savings passbooks

Additional information

Monetary deposits and investments referred in this document are operations made by non-financial counterparts (households, NPISH and non-financial corporations) vis-à-vis resident credit institutions and money market funds (MMF). These operations are of up to, and including, 2 years maturities. Interest rates are expressed as gross values, i.e. before taxes.
